

Profile:

Inquisitive undergraduate, with diverse experience in teamwork and collaboration, and a passion for problem-solving and personal technical development, demonstrated through a strong academic record and personal projects.

Experience:

- Sales Assistant | Screwfix (September 2024 - Current):
 - Built rapport with regular customers by identifying patterns in issues and applying proven solutions, demonstrating problem-solving and customer focus.
 - Supported warehouse operations by organising inventory, restocking efficiently, and maintaining a clean workspace to improve productivity.
 - Consistently volunteered for extra shifts to assist colleagues and ensure smooth operations, reflecting strong teamwork and work ethic.
- Mentoring Work Experience | St Ignatius College (November 2022 - July 2023):
 - As a 6th form student, I provided one-to-one and small group maths tutoring, identifying areas of weakness and adapting explanations to different learning styles.
 - Developed strong communication and mentoring skills by guiding students academically and socially in both structured and informal settings.
 - Also supported students during a summer camp by encouraging collaboration, building confidence, and fostering positive group dynamics (August 2023)
- Volunteer retail assistant | North London Hospice (April 2021 - November 2021):
 - Demonstrated integrity and commitment by supporting hospice retail operations throughout the lockdown period.
 - Collaborated effectively within a small team, often only 2–3 members, to deliver consistent service.
 - Balanced responsibilities independently by managing a clean, organised, and well-stocked storefront while assisting customers simultaneously.

Extracurricular

- LASR team member | Sensible Robot Research Lab @ KCL (October 2025 - Current)
 - Joined a robotics team which participates in service robot challenges at major competitions worldwide.
- Cadet Staff Sergeant | Combined Cadet Force (November 2019 - July 2024):
 - Led, instructed, and mentored younger cadets while representing the contingent at recruitment events, showcasing leadership and teamwork.
 - Organised and managed cadet activities, ensuring high standards of discipline and performance during drills and exercises.
 - Displayed resilience, adaptability, and clear decision-making under pressure by often commanding training exercises and expeditions, leading a platoon (~24) of cadets on multiple occasions.

Education:

King's College London: [2024 - 2028 (Projected)]

- Artificial Intelligence with a year in industry' BSc

St Ignatius College [Sept 2017 - June 2024]

- 3 A-Levels + EPQ : Achieved A*, A, A in Maths, Further Maths and Computer Science respectively.
- 9 GCSE (Attained a grade average of 8.2)

Projects:

- Python Mini Games
 - Developed multiple small games (Chess, Pong, Battleship, 2D Platformer, etc.) in Python.
- Loan Approval Predictor
 - Built a logistic regression neural network from scratch in Python to predict home loan approvals.
- ROS Object Recognition & Retrieval Robot
 - Designed a robot that used YOLOv4 for object detection, room classification, and voice commands for item retrieval
